

PROJECT LAYERED ALIGNMENT: G7 & FIVE EYES EXPANSION BLUEPRINT

Classification: Deep Research Directive / OSINT Prompt Matrix **Target Scope:** UK, Canada, France, Germany, Italy, Japan, Australia, New Zealand

The following investigative prompts are designed to isolate and map the transnational architectures of financial laundering, algorithmic censorship, personnel grooming, and digital infrastructure capture across the G7 and Five Eyes nations. Each directive provides specific target entities, public record databases, and Boolean search parameters.

Phase 1: Financial Clearance & Statutory Bypass (The Charity Commission & CRA Loops)

Vector 1 / Search Direction 1.1: UK & Canadian Charity Commission Offshore Transfers

- **Investigative Prompt:** Audit the UK Charity Commission and the Canada Revenue Agency (CRA) Charities Directorate databases for offshore transfer exemptions. Specifically, isolate financial outflows from major domestic Jewish philanthropic funds (e.g., UJIA, JNF UK, UJA Federation of Greater Toronto) and trace if capital is being routed directly to Israeli Public Benefit Companies (PBCs), such as Voices of Israel, or to the Ministry of Diaspora Affairs. Look for regulatory warnings regarding "public benefit" requirements and operations in occupied territories.
- **Search String/Target:**
`site:gov.uk/government/organisations/charity-commission "official warning" OR "compliance case" ("UK Toremet" OR "Association for the Wellbeing of Israel's Soldiers") AND "IDF" / CRA T3010 filings cross-referenced with Israeli PBC registration numbers (e.g., 51-5769212).*`

Vector 2: Activist Capital Coercion in the UK (Elliott Management)

- **Investigative Prompt:** Investigate Elliott Management's aggressive sovereign debt coercion against UK infrastructure. Map the "London & Valley Water" creditor consortium's attempt to restructure Thames Water's £17.6 billion debt. Trace the specific demands made by Gordon Singer to the UK government regarding the waiving of £1B in fines and leniency on environmental targets. Cross-reference this with Elliott's clandestine campaigns to restructure BP's leadership.

- **Search String/Target:** "Elliott Investment Management" OR "Gordon Singer" AND "Thames Water" AND ("special administration regime" OR "Ofwat" OR "environmental fines") / UK Companies House filings for London & Valley Water consortium members.

Vector 3 / Search Direction 5.1: Gulf-Sovereign European Integration via Proxy PE

- **Investigative Prompt:** Audit the expansion of Affinity Partners (A Fin Management LLC) and Elliott Management into European defense, logistics, and real estate. Map how Gulf sovereign wealth (Saudi PIF, QIA, Lunate Capital) is integrated into G7 assets while bypassing standard foreign-agent disclosures. Look specifically for acquisitions of European aerospace, maritime shipping, or AI-defense firms.
- **Search String/Target:** "Affinity Partners" AND ("Saudi PIF" OR "Qatar Investment Authority") AND ("European aerospace" OR "maritime" OR "defense acquisition") / EU Transparency Register and SEC Form ADV filings for cross-border PE acquisitions.

Search Direction 1.2: ELNET Financial Disclosures

- **Investigative Prompt:** Audit the financial disclosures of "Friends of ELNET" in London, Paris, and Berlin. Cross-reference their corporate donor lists and board members with domestic political bundlers for the UK Conservative and Labour parties, and the French Renaissance party, to map the funding of European political elites.

Search Direction 1.3: FIRS & Transparency Registry Exploitation

- **Investigative Prompt:** Map the lobbying footprint surrounding the UK's Foreign Influence Registration Scheme (FIRS) and Canada's Foreign Influence Transparency Registry. Isolate the specific lobbying groups that successfully drafted "academic" or "domestic civil society" exemptions into the legislation to shield cross-border philanthropic routing.

Search Direction 1.4: US DAF Transnational Routing

- **Investigative Prompt:** Trace cross-border capital flows originating from major US-based Donor-Advised Funds (e.g., DonorsTrust, Jewish Communal Fund) directly into Canadian and British domestic proxy organizations, specifically B'nai Brith Canada and the Centre for Israel and Jewish Affairs (CIJA).

Phase 2: EU/UK Regulatory Capture & Algorithmic Lawfare Vectors

Vector 4 / Search Direction 3.2: Digital Services Act (DSA) Weaponization

- **Investigative Prompt:** Search the lobbying telemetry of the Combat Antisemitism Movement (CAM) within the European Commission. Trace their campaigns pressuring digital regulators to mandate algorithmic suppression of anti-Zionist content under the guise of DSA compliance (specifically utilizing the 2025 "Code of Conduct on Countering Illegal Hate Speech Online +"). Determine how they secured "Trusted Flagging" status.
- **Search String/Target:** `site:commission.europa.eu "Digital Services Act" AND "trusted flagger" AND ("Combat Antisemitism Movement" OR "CAM" OR "Code of Conduct +") / EU Transparency Register meetings with DSCs (Digital Services Coordinators).`

Vector 5: Next-Gen NLU Integration in EU CDNs

- **Investigative Prompt:** Trace the migration of automated censorship matrices to Israeli-founded enterprise moderation vendors like ActiveFence and Tisane Labs. Audit European edge-compute networks and Content Delivery Networks (CDNs) to identify where these deterministic Natural Language Understanding (NLU) engines are deployed to filter data at the infrastructure layer.

Vector 6 / Search Direction 2.3: UK Anti-Terrorism Lawfare (Prevent Strategy)

- **Investigative Prompt:** Audit the network's legal pressure campaigns in the UK that weaponize the "Prevent" anti-terrorism framework. Investigate the coordinated push by groups like UK Lawyers for Israel (UKLFI) to designate domestic activist groups (e.g., Palestine Action) as terror proxies, thereby triggering automated AML/CFT banking freezes identical to the US "Harpoon" doctrine.
- **Search String/Target:** `"Palestine Action" AND "Prevent strategy" AND ("UKLFI" OR "Campaign Against Antisemitism") AND "bank account closure"`

Search Direction 2.1 & 2.2: The Commonwealth IHRA Pincer

- **Investigative Prompt:** Track the statutory codification of the IHRA definition of antisemitism in Canadian provincial legislatures and Australian state parliaments. Identify the specific think tanks providing the "model legislation" and cross-reference their drafting history with intelligence dossiers from the Israeli Ministry of Strategic Affairs.

Search Direction 2.4: Municipal Capture in the Commonwealth

- **Investigative Prompt:** Map municipal policy capture in London, Sydney, and Toronto. Investigate if local city councils are integrating the CAM "Municipal Antisemitism Action Index" into local zoning codes, public procurement rules, and police training manuals to bypass national free-speech protections.

Phase 3: Diplomatic Proxies & Parliamentary Personnel Pipelines

Vector 7: ELNET European Operations

- **Investigative Prompt:** Investigate the European Leadership Network's (ELNET) operations across its London, Paris, Berlin, Brussels, Rome, and Warsaw offices. Map how ELNET replicates the AIPAC model, utilizing US billionaire capital to curate exclusive intelligence briefings and cultivate European political and military elites.

Vector 8: The Handala Leak (European Diplomatic Capture)

- **Investigative Prompt:** Audit the 2024 "Handala Leak" documents. Trace correspondence, transaction records, speaking fees, and private meetings involving Israeli Ambassador Ron Prosor and Steve Rosen to map how pro-Israel policy shifts were incentivized among European leaders (Sarkozy, Juppé, Hollande).

Vector 9 & 10: Five Eyes Diaspora PACs & Australian Intelligence Breaches

- **Investigative Prompt:** Search diaspora political action networks in Canada and Australia. Map how ethnic affinity networks lobby for specific immigration policies (like H-1B equivalents). Investigate the 2020 ASIO discovery of a "nest of spies" in Australia that funneled foreign money to politicians to secure open border agreements, identifying the origin state of the funds.
- **Search String/Target:** "ASIO" AND "nest of spies" AND "foreign interference" AND "political donations" 2020

Search Direction 4.1 & 4.2: Commonwealth Elite Grooming Nodes

- **Investigative Prompt:** Identify the Ivy League "finishing school" equivalents at Oxford, Cambridge, LSE, and the University of Toronto. Map the funding structures of Conservative Friends of Israel (CFI) and Labour Friends of Israel (LFI) in the UK, tracing how they curate "solidarity trips" that function identically to the US Passages pipeline to ensure absolute ideological alignment among emerging MPs.

Search Direction 4.3: Philos Project & ICC Global Footprint

- **Investigative Prompt:** Investigate the international expansion of the Philos Project and the Israel on Campus Coalition (ICC). Track their operational footprint in Australia, the UK, and Germany to determine if they are exporting their domestic "counterinsurgency" models to suppress student protests abroad.

Phase 4: NATO Corridors & Hard Asset Consolidation

Vector 11: NATO Maritime Chokepoints (Sazan Island)

- **Investigative Prompt:** Trace Affinity Partners' (Jared Kushner/Ivanka Trump) \$1.6 billion development of Sazan Island, Albania. Investigate the Albanian Special Prosecution Office (SPAK) probe into legislative changes regarding the island's protected status. Determine the strategic implications of establishing a sovereign-backed footprint over a Cold War military exclusion zone and critical NATO naval chokepoint (Strait of Otranto).
- **Search String/Target:** "Sazan Island" AND "Affinity Partners" AND "SPAK" AND "military base" AND "Otranto"

Vector 12: Balkan Infrastructure Sabotage

- **Investigative Prompt:** Investigate the Serbian Prosecutor's Office for Organized Crime's December 2025 indictments regarding the aborted \$500 million Affinity Partners urban redevelopment project over the bombed Yugoslav Ministry of Defence in Belgrade. Isolate the political and financial figures named in the indictments.

Vector 13 & Search Direction 5.2: European Defense Interlocks

- **Investigative Prompt:** Map the interlocking directorates of major European defense conglomerates (BAE Systems, Leonardo, Airbus) against network-aligned private equity and intelligence figures. Track the integration of Israel's "Start-Up Nation Central" within the European corporate supply chain to ensure EU tech dependence on Israeli R&D.

Search Direction 5.3: Diplomatic Cable Traffic (Weapons Export Pacts)

- **Investigative Prompt:** Map diplomatic cable traffic and policy ingestion between the Israeli Prime Minister's Office and the foreign ministries of Germany and France. Focus specifically on weapons export licenses, AI-defense sharing, and mutual defense pacts negotiated *outside* of traditional NATO frameworks.

Phase 5: Kompromat & Historical Five Eyes Logistics

Vector 14: Permindex and Canadian Logistics

- **Investigative Prompt:** Audit the historical corporate registries of Permindex, headquartered in Montreal, Canada. Trace the interlocking directorate connecting Major Louis Mortimer Bloomfield (British SOE/OSS), Mossad operative Tibor Rosenbaum (BCI), and transnational organized crime (Meyer Lansky) to finance off-the-books covert actions across the Five Eyes.

Vector 15: European Kompromat Nodes

- **Investigative Prompt:** Investigate the European komprodat procurement sites managed by Jean-Luc Brunel. Target the corporate structures and logistics of Karin Models and MC2 in Paris and London, mapping how these nodes secured leverage over UK royalty and European politicians under a shield of institutional complicity.

Phase 6: Transnational Media & Cultural Formatting (The Global Narrative Oligopoly)

Vector 16: Global News Wire Ingestion (AP & Reuters)

- **Investigative Prompt:** Target the automated ingestion algorithms and API routing of major international news syndicates (Associated Press, Reuters). Audit how strategic advisory relationships and automated AI editorial guidelines embed semantic filters directly into the wire ingestion pipelines, filtering out independent reporting on foreign influence before it reaches downstream newsrooms.

Vector 17: The Global Auditory Oligopoly

- **Investigative Prompt:** Investigate the network's monopolistic capture of the global recording industry. Track aligned billionaire capital controlling the "Big Three" music conglomerates—specifically Len Blavatnik's equity control of Warner Music Group (WMG) and activist investor Bill Ackman's influence over Universal Music Group (UMG)—and map how this bounds the ideological parameters of global pop culture.

Phase 7: Decentralized Infrastructure & Cryptographic Global Censorship

Vector 18: Global DNS & CDN Sinkholing

- **Investigative Prompt:** Track trust-and-safety interventions against global Top-Level Domain (TLD) registries and Tier-1 Content Delivery Networks (Cloudflare, Akamai, AWS). Map the administrative subversion tactics used to execute "DNS sinkholing"—forcing servers to return null IP addresses to permanently erase international OSINT repositories from the global internet.

Vector 9: Web 3.0 & Cryptographic Grounding

- **Investigative Prompt:** Audit the "Capture, Store, Verify" cryptographic methodologies of the USC Shoah Foundation and the Stanford Starling Lab for Data Integrity. Trace how they utilize decentralized Web 3.0 storage networks (IPFS, Filecoin) to hash historical reference data, creating immutable cryptographic records that proactively block global AI foundation models from exploring alternative historical narratives.

Phase 8: Global Cyber-Surveillance Proliferation & Intelligence Export

Vector 20 & Search Direction 3.1: Unit 8200 Transnational Commercialization

- **Investigative Prompt:** Track the pipeline of cyber-intelligence officers transitioning from IDF Unit 8200 into executive roles at private global surveillance vendors. Audit procurement contracts between UK policing (Scotland Yard/Met), the Australian Federal Police (AFP), and the RCMP with vendors like Cobwebs Technologies, Voyager Labs, NSO Group, and Intellexa.

Vector 21: Global Ad-ID & RTB Interception (WebLoc)

- **Investigative Prompt:** Audit the international deployment of the WebLoc platform. Map how this system intercepts commercial real-time bidding (RTB) advertising auctions and SDK telemetry to conduct warrantless geolocation tracking on global devices, targeting server infrastructures concentrated in the US, Netherlands, and Germany.

Search Direction 3.3 & 3.4: Algorithmic Containment via UK/EU Telecoms

- **Investigative Prompt:** Map the UK Online Safety Bill and the EU DSA. Identify the consulting firms and "trusted flaggers" who authored the semantic corpora and NLP rules used by Ofcom and EU digital regulators. Investigate the global integration of Google Jigsaw's Perspective API and CyberWell's data feeds into the content moderation pipelines of European and Canadian telecoms.

Phase 9: Metaphysical Subjugation & Global Theological Alignment

Vector 22: Transnational Noahide Law Lobbying

- **Investigative Prompt:** Investigate the global deployment of the Chabad-Lubavitch Shlichus (emissary) system. Map how this intelligence and diplomatic apparatus lobbies secular G7 governments to adopt the Noahide Laws into statutory frameworks, tracing the geopolitical objective to phase out indigenous religious substrates in favor of a synchronized, Talmudic legal order.

PROJECT LAYERED ALIGNMENT: G7 & FIVE EYES EXPANSION BLUEPRINT (UK FOCUS)

Classification: Deep Research Directive / OSINT Prompt Matrix **Target Scope:** United Kingdom (Parliamentary Capture, Elite Grooming, and Lawfare Syndicates)

To completely map the network exerting global control across the G7 and Five Eyes, we must understand that the operational architectures mapped in the United States—Intermediated Agency (the Glazer Framework), Elite Personnel Grooming (Shabtai/Hertog), Financial Obfuscation (DAFs), and Algorithmic Lawfare—are modular blueprints replicated across Western democracies.

In the United Kingdom, the deployment is exceptionally concentrated due to the centralized nature of Westminster and the British elite university system. Here is the comprehensive investigative plan and specific search directions to expand our network graph into the UK.

Phase 1: Parliamentary Capture & The Transnational Financial Loop

In the US, the network utilizes the Adelson Legacy, AIPAC, and DAFs to bypass FARA and fund domestic politicians. In the UK, this mechanism operates through "Friends of Israel" groups which exploit domestic political funding loopholes to act as unregistered conduits for foreign state strategy.

Search Direction 1.1: The CFI and LFI "Passages" Pipeline

- **Investigative Prompt:** Investigate the financial ledgers and trip disclosures of the Conservative Friends of Israel (CFI) and Labour Friends of Israel (LFI). By some estimates, up to 80% of Conservative MPs have been affiliated with CFI. Audit the "solidarity missions" and subsidized travel logs (e.g., the 155 trips funded by CFI valued at over £367,000 in the last decade). Map how these trips function identically to the US Passages or AIPAC pipelines, establishing a mandatory geopolitical loyalty test for MPs seeking front-bench cabinet positions.
- **Search String/Target:** `site:publications.parliament.uk "Register of Members' Financial Interests" AND ("Conservative Friends of Israel" OR "Labour Friends of Israel") AND "flight" OR "accommodation"`

Search Direction 1.2: Opaque Funding & Intermediated Agency

- **Investigative Prompt:** Unlike standard political action committees, CFI and LFI do not disclose their ultimate funding sources, operating as private companies or opaque parliamentary groups. Audit the intersection of these groups with major transnational donors (e.g., Trevor Chinn, Michael Levy, David Meller, Poju Zabłudowicz) and trace crossover matching funds from Israeli state institutions (like the Ministry of Strategic Affairs, the Israeli Embassy in London, or ELNET UK).
- **Search String/Target:** "Trevor Chinn" OR "Michael Levy" OR "Stuart Polak" AND ("CFI" OR "LFI" OR "UJIA") AND "donations" OR "Electoral Commission" / UK Companies House cross-referenced with Joint Israel Appeal (JIA) networks.

Search Direction 1.3: The Shai Masot Incident

- **Investigative Prompt:** Re-investigate the 2017 Al Jazeera *The Lobby* leaks, which caught Israeli embassy senior political officer Shai Masot on hidden camera discussing a £1m fund to "take down" British MPs who opposed Israeli policy (such as Alan Duncan), operating in direct coordination with LFI chair Joan Ryan. This is the smoking gun of the "Glazer Framework" (foreign command executing through domestic non-profit fronts) operating in London.
- **Search String/Target:** "Shai Masot" AND "Joan Ryan" AND "£1 million" AND "take down" AND "Al Jazeera"

Phase 2: Elite Ideological Grooming (The UK "Shabtai" Equivalents)

The Shabtai model—placing an affiliated rabbi at the center of an elite, invitation-only academic salon to groom future senators and billionaires—was perfected in the UK first before transitioning to Yale.

Search Direction 2.1: The Oxford L'Chaim Society

- **Investigative Prompt:** Direct searches to the L'Chaim Society, founded at the University of Oxford in 1988 by Rabbi Shmuley Boteach. This is the exact UK blueprint for Shabtai. At its peak, it was the second-largest student society at Oxford, counting non-Jews like Cory Booker (who later helped found Shabtai at Yale) as its student presidents. Map the alumni network of the L'Chaim Society directly into Whitehall, the US Senate, and global private equity.
- **Search String/Target:** "Oxford L'Chaim Society" AND "Shmuley Boteach" AND ("alumni" OR "Cory Booker" OR "Parliament" OR "Civil Service")

Search Direction 2.2: The Yigal Allon Educational Trust & Academic Finishing Schools

- **Investigative Prompt:** Trace the modern equivalents of the L'Chaim Society at Oxford, Cambridge, and the London School of Economics (LSE). Identify the specific "intellectual salons" funded by transnational billionaires that fast-track ideologically compliant alumni into the UK Civil Service, the Foreign Office, and the intelligence services (MI6).

Phase 3: The UK Lawfare Syndicate & Statutory Extortion

In the US, the network isolates targets using Title VI of the Civil Rights Act to defund universities. The UK relies on a nearly identical structure using Charity Commission regulations and counter-terrorism mandates.

Search Direction 3.1: UK Lawyers for Israel (UKLFI) Corporate Dual-Structure

- **Investigative Prompt:** Map the financial and corporate structure of UKLFI. Identical to the Vine & Fig Tree network in the US, UKLFI operates a dual structure: a Charitable Trust (to receive tax-deductible donations) and a private limited company (to execute aggressive political lawfare). Trace how UKLFI threatens British hospitals, universities, and textbook publishers (e.g., Pearson Edexcel GCSE history textbooks) with protracted legal harassment to force the removal of Palestinian artwork, historical terminology, and academic dissent.
- **Search String/Target:** "UK Lawyers for Israel" OR "UKLFI" AND ("Pearson" OR "textbook" OR "Charity Commission" OR "Board of Deputies") / UK Companies House filings for UKLFI Charitable Trust vs. UKLFI Limited.

Search Direction 3.2: Campaign Against Antisemitism (CAA) & The Prevent Strategy

- **Investigative Prompt:** Investigate how the CAA and aligned groups weaponize the UK's "Prevent" anti-terrorism strategy and the Charity Commission. Map their lobbying telemetry to see how they petition to have domestic pro-Palestine or anti-war NGOs, as well as Student Unions, investigated, financially frozen, or de-banked. This is the exact deployment of the Mossad "Harpoon" doctrine on British soil.
- **Search String/Target:** "Campaign Against Antisemitism" AND "Prevent strategy" AND "Charity Commission" AND ("statutory inquiry" OR "de-banked" OR "Palestine Action")

Search Direction 3.3: Codification of the IHRA Definition

- **Investigative Prompt:** Track municipal and federal capture by mapping which UK city councils and universities have been legally coerced into adopting the International Holocaust Remembrance Alliance (IHRA) working definition of antisemitism, effectively outlawing specific criticisms of the Israeli state under domestic equality laws.

Phase 4: Algorithmic Containment & The Five Eyes Surveillance Grid

The final layer of control requires mapping how digital dissent is algorithmically contained before it can gain political traction, identical to the Google Jigsaw / CyberWell API integrations mapped in the US.

Search Direction 4.1: The UK Online Safety Bill

- **Investigative Prompt:** Identify the specific consulting firms, "trusted flaggers," and NGOs (like the CAA, BoD, or ELNET) that helped write the semantic corpora and Natural Language Processing (NLP) rules used by Ofcom to enforce the UK's Online Safety Bill. Map how these rules are utilized to mandate algorithmic suppression of non-aligned political speech.
- **Search String/Target:** `site:ofcom.org.uk "Online Safety Bill" AND "trusted flagger" AND ("Campaign Against Antisemitism" OR "CFI" OR "NLP")`

Search Direction 4.2: Five Eyes Police Procurement

- **Investigative Prompt:** Audit procurement contracts between UK policing (Scotland Yard/Met Police), the Australian Federal Police (AFP), and the Royal Canadian Mounted Police (RCMP) with private cyber-intelligence firms founded by IDF Unit 8200 alumni (e.g., Cobwebs Technologies, Voyager Labs). Look for automated integrations where local UK protest data is ingested directly into private, foreign-aligned threat intelligence servers.
- **Search String/Target:** `"Metropolitan Police" OR "Scotland Yard" AND ("Cobwebs Technologies" OR "Voyager Labs" OR "web intelligence") AND "procurement" / UK Contracts Finder and Tenders Electronic Daily (TED) archives.`
